FREE COINAGE.

And now the West catches a glimps of the silver lining to the d irk cloud that has hung so long over its prosperity. It begins to lok as if we were about to win back the rights taken from us by the great conspiracy of 1873, when London and Wall Street stalked into the halls of National legislation, and debased and degraded the dollar of the people and the Congress of the United States. It was the most daring piece of public robbery in the annals of history, and until now the clamor of an outraged people for repari tion has been unheeded by the law-makers of the Nation.

The Senate of the United States has been wise enough to see the wisdom of quick action and that the fate of a party and perhaps of a nation is in danger when the gathering storm breaks.

By this time the House has been sufficently educated in the impor tance of this question to accept the Senate amendment to the Silver bill and provide for free coinage. There is scarcely any question that they will do this, as petitions and telegrams are pouring in from all over the United State. from the people to their representatives. After the bill reaches the President he will show less than his former wisdom if he vetoes it. His veto of the bill will be his political suicide.

NEWSPAPER ADVANCEISM.

The last quarter of a century has shown great advancement it. the newspapers of San Francisco Their strides from nothing to their present proportions is something the Coast has reason to be proud of. The house-warming of the Chronicle's new building is an event in the history of Coast journalism.

The Examiner is about to erect a building which will be just as much better than its neighbor's in proportion to the improvements and inventions which come from somebody's brain during the next

Certainly the Chronicle building is just as good as the ingenuity and enterprise of man can perfect to date. If there is any one business which keeps pace with the times it is the publishing of a big metropolitan daily.

The APPEAL hopes to see these splendid buildings thrown aside and used for old store houses ten years from now to make way for something better in every respect, as the new Chronicle building is better than the old one it is about to vacate.

AN EXTINCT RACE

Carson, June 18, 1890. EDITOR APPEAL:-

The term of Anglo-Saxon employed to designate the inhabitants of the United States is a most glaring misnomer. The term Anglo-Saxon cannot be applied to any people on the face of the earth. The Anglo-Saxons are as extinct as the mastodon, and the English people might be as well called Normans or Britons as Saxons. Here in America we have a mixture of Englishmen, Irishmen, Germans, Frenchmen, Scotchmen, Spaniards and Italians, and to call us Anglo-Saxons is as absurd as to assert we are Goths or Picts. Americans not only are not Anglo-Saxons, they are not even Englishmen. Yours respectfully.
